Education

BSc: Baku State University

Experience

Current : Senior Production Engineer at Shopify, co-maintainer of ingress-nginx

Past: fitogram, Josh Software

Kiss.Conf 2020

Kubernetes.

- Orchestration of containerized applications
- Deployment, auto scaling, maintenance

Kiss.Conf 2020

Ingress. Controller.

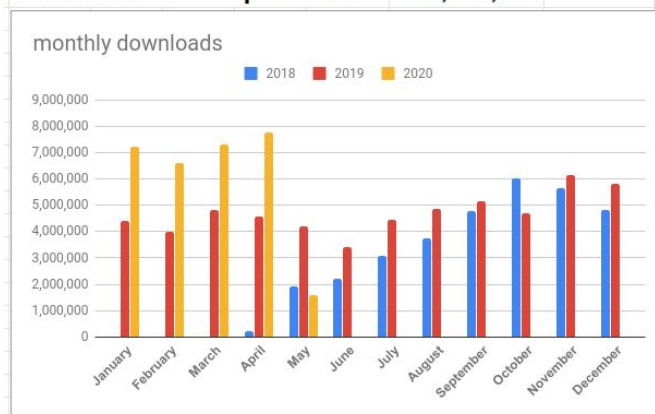

- So we deployed example.com
- How do we expose it to Internet for users to be able to connect to it?
- Ingress resource
- Ingress controller

```
apiVersion: networking.k8s.io/v1beta1
kind: Ingress
metadata:
  name: example-com
spec:
  rules:
    - host: example.com
      http:
        paths:
          - path: /
            backend:
              serviceName: svc
              servicePort: 8080
```

ingress-nginx

- 67 releases over 480 contributors from all around the world
- 500 GitHub stars and almost 118 million downloads of the docker image since April 2018
- We also have almost 54,000 monthly visits to the documentation website and more than 4,400 users in the #ingress-nginx Kubernetes Slack channel.

downloads since April 2018 119,563,758

	2018	2019	2020
January		4,400,927	7,249,208
February		4,001,205	6,586,565
March		4,815,043	7,321,224
April	218,572	4,582,708	7,768,714

Kiss.Conf 2020

ingress-nginx: how it works

- Control plane
- Data plane
- Interaction between data plane and control plane
- Interaction between control plan and Kubernetes master

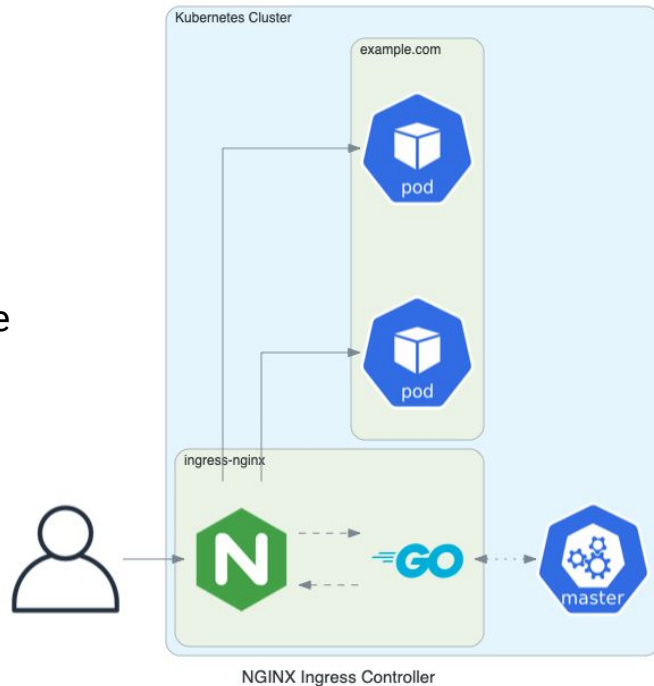

Kiss.Conf 2020

ingress-nginx: how it works

- Control plane
 - Watches on Ingress, Service, Secret, Endpoints, Configmap resources
 - Maintains an internal Go struct encapsulating all the configuration for Nginx
 - Generates Nginx configuration and reloads Nginx
- Data plane
 - Nginx powered by Lua
 - Dynamic endpoint configuration handling

Kiss.Conf 2020

Contributing to ingress-nginx

- Go
- Writing Kubernetes controllers, using Kubernetes API client and familiarizing yourself with Kubernetes API in general
- Nginx, lua-nginx-module, Lua
- Deploy an instance of ingress-nginx and use it locally to expose a dummy app

Contributing to ingress-nginx

- Read the documentation, and make PRs to improve - there's a lot of room for improvement there
- Go through Github issues, try to review and give feedback on random PRs
- Here are some of the high priority issues
 - [Dynamic OCSP stapling improvements](#)
 - Improving test coverage
 - [A simple bug fix](#)
